

Please add new Claims 12-19 as follows:

- A2
12. (New) A process according to Claim 11 wherein the dicarboxylic acid is selected from C₂-C₁₃ dicarboxylic acids and mixtures thereof.
 13. (New) A process according to Claim 11 wherein the water is added within 10 minutes of the dicarboxylic acid becoming molten.
 14. (New) A process according to Claim 11 wherein water is added in an amount of at least 1g per 1,000g of dicarboxylic acid.
 15. (New) A process according to Claim 11 wherein at least 1g of water per 1,000g of dicarboxylic acid is added per minute.
 16. (New) A process according to Claim 11 wherein the dicarboxylic acid is heated to a temperature at least 5°C above its melting point.
 17. (New) A process according to Claim 12 wherein the dicarboxylic acid is hexanedioic acid.
 18. (New) A process according to Claim 11, wherein the process further comprises adding a chelant to the molten dicarboxylic acid.
 19. (New) A composition according to Claim 8 wherein the dicarboxylic acid is hexanedioic acid.

REMARKS

By the amendments presented, Claims 1-7 have been cancelled without prejudice.

Also by the amendments presented, Claim 9 was amended in order to properly depend from Claim 8.

Also by the amendments presented, new Claims 12-19 have been added. Support for these new claims is found, at a minimum, in the claims as originally presented.
